

# WEBSITES TO LEGALLY WATCH FREE MOVIES ONLINE

By Hewie Poplock

Sun City Center  
Computer Club

In this section we will look at several FREE streaming services to watch movies, TV shows, sports, and more.

I need to add a couple of items that I did not include in the video that you just viewed.

The background is a solid green color with a light green grid pattern. There are two large, semi-transparent circular shapes: one in the top right corner and one in the bottom left corner, both in a slightly darker shade of green than the background.

Sometimes you have to  
activate a service.

Access to EPIX comes with your subscription

It might be time to say goodbye to Netflix, Hulu, or Disney Plus, especially if you're trying to lower your monthly costs. You'd be surprised how quickly all of those services can add up and match your cable bill. Luckily, you can keep your spending in check and still get your cinema fix. There are plenty of places online to stream movies and TV shows for free legally, and here are some of the best options.

# Hoopla

Many people don't know that their local library card can get them more than just books. If your local library supports it, you can also gain access to a couple of different services that let you watch free movies online, and Hoopla is one of them. Hoopla features tons of free movies and TV shows online and through its mobile app.

Beyond movies, Hoopla also has tons of eBooks, comics, music, and audiobooks so that it can become your one-stop entertainment shop. Just keep in mind, Hoopla works kind of like a standard library, so you will only be able to borrow a certain number of movies, TV shows, or books, and you have a set time to finish them before you have to check them out again.

# Internet Archive

The Internet Archive is a little bit of an oddball in this list. Not only can you stream thousands of hours of free movies online, but you are also free to download nearly everything on the website too. That's because all of the content on the Internet Archive is either uploaded by users or falls within the public domain. Most feature films are more than 70 years old, but it's the place for classic detective, sci-fi, horror, and silent films.

# Movies

Watch full-length feature films, classic shorts, world culture documentaries, World War II propaganda, movie trailers, and films created in just ten hours: These options are all featured in this diverse library!

# Kanopy

Just like Hoopla, all you need to get up and going with Kanopy is a library card. We can't guarantee every library supports it, but Kanopy is a treasure trove of free movies online if yours does. You may also be able to tap into Kanopy's library through your school or university.

You can access Kanopy online or through the service's mobile app, and there are more movies than you could ever hope to watch. Plus, Kanopy's movie selection is top-notch, featuring award-winning films from studios like A24.

# Plex

Plex is a valuable tool for people who want to access their personal media library from anywhere in the world. But that's not all it does. Plex now has its own online ad-supported media library, so users can watch tons of free movies online without having their own collection.

This selection of free content fits seamlessly within the existing Plex interface so that you can access it either from the app or within a browser. Whether you're already a longtime Plex user or you've never even heard of it, this new movie selection is worth a look.

## Pluto TV

One itch most streaming services don't scratch is the need to channel surf like you can on cable television. That's where Pluto TV comes in. Pluto TV features tons of free movies, TV shows, and cartoons online and through the Pluto TV app, but it presents them in a way that's more akin to classic cable.

Pluto TV has a section where you can stream content on-demand, but it also features well over 250 channels that you can tune in to watch at previously scheduled times. Naturally, that comes with a few downsides, but if you are looking for a one-to-one replacement for your existing cable service, Pluto TV has you covered.

Stream now. Pay never.

# Tubi

Tubi TV has been around since 2014, and since then, the service has grown to become one of the highest quality free movie streaming services you can find online. What's excellent about Tubi is that it offers some of the overall best films on this list.

It also boasts various genres you won't find on many other free services like LGBTQ, home and garden, reality TV, and musicals. It also has many hand-curated collections, so if you have difficulty finding what you want to watch, Tubi will help you narrow it down. There's also a growing number of exclusive movies on Tubi.

## Yidio

Like Movies Found Online, Yidio doesn't host its own content. Instead, it aggregates online movies and TV shows from paid and free services into one easy-to-navigate UI. Because of that, Yidio's library looks massive.

You can watch free movies directly from the website, and you can also browse content on Netflix, Amazon Prime, and Hulu. So, if you have at least one of these streaming services, you should give Yidio a try.

## YouTube

YouTube is chock-full of content creators, vloggers, and even original content. But what people might not know is that YouTube also offers a library of movies and TV shows beyond YouTube Originals. Within that online library, there is an entire selection of movies you can watch entirely for free.

Though the free library isn't the largest on this list, you'll find horror films, comedies, action flicks, dramas, and even children's movies. So, the next time you check out the Android Authority YouTube channel, be sure to scout out YouTube's free movie library.
